

# Notes-hub Cookie policy

## 1 What Are Cookies?

A cookie is a small file which is placed on your computer when you visit a app. Cookies enable different functionality on the Notes-hub including:

- Identifying when you download or return to the website, to allow us to respond to you as an individual
- Analysing activity on our app to provide you with a better service and user experience

## 2 Why Do We Set Cookies?

Some cookies are necessary for the operation of the website, others are optional but help us to provide you with a better experience. We categorise the cookies used on our app as follows:

- **Necessary** – required for the operation of the app, including protecting the app from attack, and allowing you to book vaccination appointments
- **Social and Personalisation** – these allow for a more tailored experience on the app, and allow for potential interaction with social media platforms
- **Analytics** – these help us to analyse data about web page traffic and improve our app in order to tailor it to customer needs; we only use this information for statistical analysis purposes

Where permitted by law, we may combine information we receive from other apps, mobile applications and other sources, with information you give to us and information we collect about you, including cookie information.

## 3 How Can I Manage my Cookies?

When visiting our website you can choose to accept or decline our use of cookies that are highlighted as being for "Analytics". You will still be able to use the website, and place orders. "Necessary" cookies are required by us to ensure that the app functions correctly – if you do not want to accept use of these cookies, then you will be unable to use our website.

In addition to controlling the categories of cookies by means of the banner that is displayed to you when you first access our App, you may use your browser settings (e.g., in Chrome, Safari, and others) to control individual cookies. Consult the Help files for your specific browser.

## 4 What Cookies Do We Set?

We have listed below all cookies we use, their purpose, and who & where we share them, grouped into the categories as defined under the “Why Do We Set Cookies?” section. You may make your choice as to whether to accept these cookies at the foot of the table.

Category	Provider	Cookie Name	Purpose	Shared with (and location)
Necessary			For the operation of the App	
Analytics	Google Analytics			Google - US

### Cookie Banner Notice

To ensure awareness of the cookies in use, and hence to enable informed, accurate and specific consent prior to setting of cookies, it is required that the app has a cookie notice banner on first access. The ‘pop up’ will contain the following explanation (adapted as necessary for individual sites that may vary in their specific features):

---

#### ***"This app uses cookies***

*We use cookies to personalise content and adverts, to provide social media features, and to analyse our traffic. We also share your data with our advertising, social media and analytics partners who may combine it with other information that you have provided to them or they have collected from your use of their services. You consent to our use of cookies if you continue to use this app."*

---

### Re-consenting

The banner should re-appear at the anniversary of the first visit (or at next visit subsequent to that date for a new vaccination) to enable/remind the CUSTOMER to review their consent.
