TimeChamp Enables Productivity

We enable productivity in the organizations and increase profitability.. One of the side effects of what we do enables remote working.

TimeChamp Solution

Comprehensive feature set that addresses every single problems thrown by today's business challenges

Automatic Timesheets

TimeChamp makes timesheets so easy and simple. It is just automatic and setting up is easy !

01

Improve timesheet accuracy

By removing the margin of error that comes with manual time reporting, automated time trackers set a new standard for time sheet accuracy.

02

Reduce time tracking overhead

TimeChamp reduces overhead costs and streamlines the entire process of time tracking of both billable and non-billable activities seamlessly easy!

03

Increase productivity

By doing away with manual timers, employees don't have to consciously remember to track their time. There's no grappling with start and stop buttons as they switch between tasks

Productivity Enhancement

Just sit back and enjoy the productivity analytics come into your dashboard in real time.

01

Accentuate the positives

Productivity metrics offer a truly objective way to recognize and reward performance.

02

Like a fitness tracker

A measurement system doesn't have to just record activity. It also can encourage people to think about how to raise their game, while providing the data that will help them work toward their goals.

03

Switch from Reactive to Proactive

Needless to say, productivity is what makes or breaks an organization. Productivity that cannot be measured will be difficult to be improved upon. Measuring productivity for better understanding and optimizing will enable managers to switch to more proactive mode.

BUSINESS SUITE

Summary Timesheet **Productivity**

Branch Role User

From date: 15 Dec, 2020 To date: 21 Dec, 2020

User ^	15-Dec-2020
Adam Warlock	11h 45m 59s
Christopher Acton	12h 42m 36s
Edward Ground	12h 33m 7s
James Johnson	8h 1m 33s
Malik Khan (Myself)	3h 25m 13s
Melanie Beasley	9h 59m 7s
Michael Freedman	12h 54m 17s

[Optional] Employee Monitoring

Found an employee that is having trouble concentrating on work? Would you like to help him or her focus on work and stay on task? Use our monitoring module.

01

Timeline

Helps to keep track of online traffic showing every website visited by users. Stealth mode enable deployments extremely easy and reliable.

02

Monitor Screenshots

TimeChamp helps employer monitor employees' cyber slacking in real-time, screenshots are taken at random or regular intervals apart from logging Keystrokes or Mouse movements.

03

Live Screenshot & Live Video

Employees can be seen on a single dashboard being tracked in real time and graphically. Along with this, any given employee's screen can be viewed in real time along with a live video of the employee screen.

The screenshot displays the TimeChamp monitoring dashboard. At the top, there is a navigation bar with icons for Timesheet, Productivity, Timeline, and Screenshot. Below this, there is a search bar and a date selector set to Dec 26, 2020. The main content area is divided into several sections:

- Employee List:** A vertical list of employee entries for 'Joe (3682)' with timestamps ranging from 'min ago' to '0 Jan 2020'.
- Activity Graph:** A bar chart for Dec 26, 2020, showing activity levels over time. The y-axis ranges from 0 to 250.
- Live Screenshots:** Two large panels showing real-time screenshots of a user's desktop. The user is identified as 'ADAM WARLOCK' with a timestamp of '7:40:12 PM IST'.
- Page Controls:** At the bottom right, there are controls for 'Items per page' (set to 05) and a pagination indicator '01 - 04 of 50'.
